

## TISPOL Bulletin, 20 March 2012

Dear Colleague,

At the top of my list is to express TISPOL's condolences to the families of all those people killed in last week's **coach crash** in Switzerland. Let me also pay tribute to all the emergency service personnel, who worked in such appallingly difficult and tragic circumstances.

The seatbelt enforcement operation took place during last week. We were particularly pleased to hear from **PC Julian Weal (Thames Valley Police, UK)** during the operation. He explained how, just 25 minutes into a control, he had stopped a car with two 'unbelted' rear passengers. Checks revealed they were wanted by the Immigration Service. This perfectly illustrates the essence of road policing and the importance of connecting road safety with road security. Please **send** any other specific examples and details to us.

We have opened delegate and exhibitor bookings for the **2012 TISPOL Conference** in Edinburgh. We are delighted to be welcoming EC Deputy-President and Transport Commissioner, Siim Kallas, who will provide the keynote address.

I hope you enjoy this latest Bulletin. Do please forward it to colleagues and contacts, and we would be most grateful if you can encourage them to **sign up to receive it**.

**Ian Hamill** (General Secretary)

### TISPOL Conference: open for bookings

EC Deputy-President and Transport Commissioner Siim Kallas to deliver keynote address
